# Reinhard Cui

## Senior C# Developer

@ reinhardcui91539@gmail.com   ⚲ Singapore, 6B Lor 19 Geylang

## SUMMARY

- I am a highly skilled and experienced software engineer with a passion for developing cutting-edge web and mobile applications using C# and .NET. With over 6 years of experience in the industry, I have a proven track record of designing, developing, and launching successful software products that meet the needs of both clients and end-users.
- I am a T-shaped person with a client-oriented approach, attention to employees and partners, efficiency, and striving for development.
- I am focused on driving software development teams to success in startups and fast-growing companies.

## EXPERIENCE

### Senior C# Developer

**Applexus Technologies**   07/2018 - 10/2022   United States

- Design, develop, and maintain web and mobile applications using C#, .NET, and SQL Server.
- Lead a team of 8 developers, providing guidance and support to ensure timely delivery of high-quality software products.
- Implement agile methodologies to streamline the software development process and improve team productivity.
- Develop and maintain APIs, resulting in a 30% reduction in server response time and a 20% increase in overall system efficiency.
- Collaborate with cross-functional teams to ensure seamless integration of software products into the larger system architecture.

### Lead C# Developer

**Iotalents Pte. Ltd.**   08/2015 - 05/2018   Singapore

- Led a team of 6 developers in the design, development, and maintenance of web and mobile applications using C#, .NET, and SQL Server.
- Developed and implemented software development life cycle SDLC processes to ensure high-quality software products and timely delivery.
- Improved team productivity by 25% through the use of agile methodologies.
- Mentored junior developers, helping them to improve their technical skills and contributing to a positive team culture.
- Collaborated with cross-functional teams to ensure seamless integration of software products into the larger system architecture.

## ACHIEVEMENTS

- ◈ Successfully designed, developed, and launched a dozen web and mobile applications with a focus on user experience and scalability.

- ◈ Led multiple development teams of up to 10 members, providing guidance and support to ensure timely delivery of high-quality software products.

- ◈ Streamlined the software development process by implementing agile methodologies, resulting in a 20% increase in productivity and a 30% decrease in time-to-market.

- ◈ Developed and maintained robust APIs using C# and .NET, resulting in a 40% reduction in server response time and a 25% increase in overall system eciency.

- ◈ Mentored junior developers, helping them to improve their technical skills and contributing to a positive team culture.

## LANGUAGES

English   Proficient   ●●●●○

## SKILLS

### Technical Skills & Software

C#   ASP.NET   SQL   JavaScript

Amazon Web Services

### Design Methodologies

Data Flow Diagrams   Design Patterns

OOAD with UML

### Databases

MySQL   PostgreSQL   Oracle   DB2

SQLite   Redis   Neo4J

## EDUCATION

**BACHELOR OF SCIENCE IN COMPUTER SCIENCE**

Nanyang Technological University

03/2011 - 07/2015

## Certification

- Certified Entry-Level .Net Programmer
